LEAGUE AND ASSOCIATION GAMES.

There was a grand change all around yesterday. Because of the game here Boston is now in second place, and Pittsburg is once more ahead of Indianapolis. Mr. Kelly was a very much disgusted citisen last evening.

Every individual or aggregation of individuals on this earth has a mission of some kind to fulfil. If this is not true, then all the philosophy of poets and philosophers falls to the ground, and the Pittsburg Baseball Club has no right to exist at all. Modern history has shown clearly that the baseball aggregation is a very important factor in baseball affairs. Not because of any likelihood of its bringing first honors; not at all. There's no fear of that. Bu the delegation have certainly been ordained to blight and blast the hopes of others. That's where we are very important people. All the aspirations of very ambitious people can be knocked into the shape of a three cocked hat when they strike this town. This has been the lot of Chicago and hosts of other would-be champions. The local unaccounta bles stopped the wheels of the big fellows from Boston vesterday and knocked them out of the premier's position of the League struggle STILL IN THE BING.

After an act of that kind the world mus know that we are still in the ring: though slightly used up at that, However, genial Jeems Mutrie, long before his head was laid on his last night's, or it may be this morning's pillow, would be proud of the fact that Pittsburg is still in fighting condition, notwithstand-ing the krock downs she has suffered since May last. In truth, the local team beat Boston yesterday, and beat the aspiring champions ery badly at that. After the game the general question was: How in the world has Pittsburg ever managed to lose a game to Boston? A query like this coming after Pittsburg has red its first victory in 12 games may seem attach an earnestness to it, and after they have of Whateley and the mathematics of Euclid to convince them other than the thought that Boston ought to have been beaten almost every

game this season by Pittsburg.

However, all argument aside, it is a great pleasure indeed to beat an aspiring lot of men like Boston. There is more pleasure in it to the cranks than there is to politicians who change the politics of a locality like the First ward. This pleasure was reaped yesterday to the Queen's taste, and for once there ought to be some lasting monument of the occasion by the New York people. All that we need is encouragement and we'll make somebody else win what we cannot get ourselves. Even this is, not dog-in-the-manger business, because, after all is said, we do want the hay—that is,

LOOK OUT FOR PITTSBURG. We cannot get it now. With this fact before the world, let the world look out for the Pittsburg delegation will play in knocking to shivereens the chances of other people. Yesterday's game, that is, the result of it, was

a genuine surprise to those who don't know what the Pittsburg players have up their sleeve. Previous to yesterday they had met Boston II times, and never scored a victory. If they had it probably would never have been thought of in the world's history. The victory was deferred until it was impressive, and now all records will say that on a certain day of the

records will say that on a certain day of the month Pittsburg beat Boston, and knocked the latter out of the League championship pennant. There is history at once, and we'll claim our very significant part of it, and, no doubt, Mutrie, Ewing and Day will pay for it.

But to the game. It was a good one, and no mistake about it. Old Jeems once more was a youngsier full of fun, power and tricks. Oh! but he cut the big men of Boston down as a shearer would the waving corn at harvest time. The old sport was out for a lark, and he not only brought tears to the eyes of the visitors by his frivolity but contributed materially toward knocking young Daley out of that somewhat imaginary inclosure, and probably he was glad to get out of it. Radbourne, the new Charley Ross, reappeared, and did not make a great success either. The home talent was too tough, and likely enough if all the men now under contract by Boston, including Billings, had been in the box, the result would still have been defeat. Captain Kelly knew this, and made the remark to Captain Hanlon:

KELLY'S WISE PHILOSOPHY. "Why, we never complain of being beaten Late last evening Captain Kelly wired Bill buy the Pittsburg club out at once if Boston desires the pennant. But the local team's vic-tory not only dragged Boston, but put itself up

tory not only dragged Boston, but put itself up into sixth place again, and that is worth another cheer.

As stated, Galvin both pitched and hit well. Only five hits were made off him, and he had a double and a triple. Daley was wild and easy to hit now and again. He was taken out of the box at the end of the fourth inning, and Radbourne took his place.

Two bases on halls, a sacrifice hit and a fumible by Richardson sent in the first run. A base on halls, a stolen base and a wild throw by Smith sent Carroll home in the third inning.

The fourth was a corker, as five runs were made. Kuchne and Dunlap each got their bases on balls, and Galvin sent them home by a two-bagger to left field. Miller got his base on balls, and he and Galvin sent them home by a two-bagger to left field. Miller got his base on balls, and he and Galvin advanced a base on Carroll's sacrifice. Row's double to right sent both Galvin and Miller home. A sacrifice and a single sent Rowe home.

Radbourne started to pitch in the fifth, and Dunlap's single, Galvin's three-bagger and a single by Carroll netted two more runs, and that ended the run getting. Following is the

DUNLAP DEPOSED.

Innion Will Hereafter Act as Both Captain and Manager.

Center Fielder Banlon was yesterday appointed field captain and manager of the Pitta-burg club. After nearly two years' trial Cap-tain Duniap reaigned the field captain-cy. As a result of yesterday's game, President Nimick summoned Hanion and Duniap to his office this morn-ing. He spoke to Duniap about the team's poor showing and said his administration hadn't given satisfaction. Duniap replied that he was auxious to be relieved for he was

blamed for moves made by other men. But he didn't want to lose any money by it.

He was assured that his salary would remain the same, and he was therefore relieved. Hanlon was appointed field captain and manager, with rull power to make the men play ball and discipline them. He takes charge at once. Matters will be put in shape so that he will remain in these positions permanently.

ONE FOR WASHINGTON. The Indianapolis Club Drope Back Into the Seventh Position.

Indianapolis, August 13.—The Senators bunched their hits in the second and ninth innings to-day, taking the second game from the Hoosiers. Denny jost his head in the ninth inning and made a costly error which gave the visitors the winning run. Boyle pitched indifferent hall. Attendance 600. Score:

As the winning numbers were announced no one came forward to claim the articles, and the fun had to be bottled up for another occasion. The Knights expressed themselves as well satisfied with the way everything had transmised.

NEW YORK, August 13.-Stephen Howard the well-known oarsman of South Brooklyn

the well-known oarsman of South Brooklyn, who is not a member of any rowing organization, is eager to arrange a single-scull race, three miles with a turn, against either Thomas Fitzgerald, Edward Oldam or Joseph McGrath, well-known oarsmen of South Brooklyn. Howard called at the Police Gazette office yesterday, posted \$100 forfeit and left the following businesslike rowing challenge:

BROOKLYN, N. Y., August 12.

I hereby challenge either Thomas Fitzgerald, Edward Oldam or Joseph McGrath to row a three-mile single-scull race, with a turn, in best-and-best boats, shells or gigs, for \$500 or \$500 a side. William E. Harding to select the course, act as final stakeholder and act as or appoint the referee. The race to take place ten days from signing articles. To prove I mean business, my backer, Daniel J. Lynch, of South Brooklyn, has deposited \$100 forfeit. I am ready to meet either of the above carsmen at the Police Gazette office any day they name to sign articles.

A DANGEROUS DISEASE.

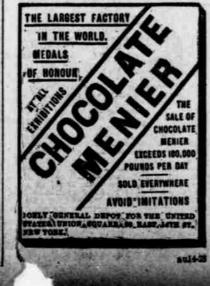

The number of people who annually die from Bright's disease is simply astonishing. Beginning by a weakness in the back, accompanied by pain, which at first may be slight, still, as the disease progresses, there is an increased pain in the small of the back and in the region of the groins, high colored urine with brick dust sediment, scanty or copious flow, with pain in voiding it. Not only do the kidneys themselves become organically diseased, terminating in gravel or stone in the bladder, dianetees or Bright's disease, but is one of the most potent causes of rheumatism and dropsy.

Dr. Shafer, one of the physicians of the Polypathic Medical Institute, at 420 Penn ave. The Polypathic Medical Institute is permanently located in Pittsburg for the treatment of rheumatism, kidney and urinary diseases. Its physicians are not confined to any school of practice, but embrace any and all remedies that close study and long experience have found to be the most effectual in curing disease. Dr. Shafer, one of the physicians associated with this medical institution, and a skilled specialist, gives especial attention to the treatment of all kidney and urinary diseases. Analysis of specimens of urine free. Consultation also free.

ANOTHER CHILD LOST.

sponsible for the Deaths of Their Children.

woods, but lost to the parents through death! The report of the Board of Health in New York shows that more than one-third of all deaths dur-ing the summer are children. Cholera infantum, teething, summer troubles, unripe fruit-all are at olemn duty to protect. Nearly all these and death might have been avoided. Parents thoughtlessly neglect their children, but they are none the les criminally responsible. Watch the tender child that heaven has sent you. Do not wait for the approach of sickness, but fortify its little body against the terrible evils of summer. Millions of disease germs are constantly attacking and find an easy home in the child. Kill the germs. The best. Put two drops of Perry Davis' Pain-Killer in the child's liquid food. This will kill the germs; will prevent disease. It is wonderful what an effect this simple precaution has. One mother, writing on the subject, says:

"Money could not tempt me to go through the summer without a bottle of Perry Davis' Pain-Killer close at hand. I lost one child that I am certain could have been saved had I used this remedy, and I have always felt responsible for its death. None of my children have since been sick during the summer, which is due to my care and the free use of Pain-Killer."

There are thousands of parents following the same course, and the constant death of their children is their reward. No parent can afford to risk the life of a child when so sure and simple ameans of safety can be served. of safety can be secured.

EVERYONE ADMITS

That the success of a town is dependent upon the relative size and importance of its industries and likewise upon its location and advantages. Without enterprises of moment to support its population, general business languishes; without public im-provements people prefer to live elsewhere.

WILMERDING

ises success and the rapid sale of one hun-dred and fifty lots, on which buildings are in course of erection, confirms the prophecy.
THE WESTINGHOUSE AIR-BRAKE WORKS, located in the town, is the most phenomenally successful manufacturing enterprise in the country, and its army of workmen, with their families, would alone constitute a thriving community.

The various public improvements at Wilmerding are being pushed along as speedily as possible, including the laying of the street mains through which the town will be abundantly supplied with pure water. Substantial plank sidewalks, sewers and natural gas add to the public comfort. Double-sized lots at all prices. For choice locations apply at once to the
